# ERIK MABES

Phoenix, AZ 85048 · 928-607-9156 · erik.a.mabes@outlook.com · linkedin.com/in/erik-mabes-4b6133184 · github.com/emmabes · erikmabes.com

## PROFESSIONAL SUMMARY

Java and AWS Software Engineer with production experience across the full SDLC at Amazon-scale. Spearheaded an image inspection feature that reduced upload errors by 9% and saved ~$50M annually; collaborated on a listings error initiative saving ~$250M annually. Coded against 16+ AWS services via IaC in a high-availability, EC2-based microservices environment. Cross-functional background spanning big-tech engineering, Lean Six Sigma project management, and operational leadership — enabling rapid identification of high-value technology opportunities across organizations of any size.

## TECHNICAL SKILLS

**Languages:** Java, Python, TypeScript, JavaScript, SQL, VBA

**Frontend:** React, TypeScript, HTML/CSS

**Backend:** Java, REST APIs, Microservices, Distributed Systems, Event-Driven Architecture, SQS

**Cloud / AWS:** API Gateway, Lambda, EC2, DynamoDB, S3, IAM, Secrets Manager, CloudWatch, CodePipeline, CodeBuild, CodeCommit, KMS, Amplify, CloudFront, Glue, SQS, Polly

**DevOps / CI/CD:** Git, Docker, CI/CD Pipelines, Infrastructure as Code (IaC), On-Call Operations

**Testing:** JUnit, Postman, Test-Driven Development, Automated Testing, Performance Testing

**Data / Analytics:** Python Scripting, Data Pipeline Design, Power Query, Excel, VBA Macros

**Project Management:** Agile, Scrum, Kanban, Lean Six Sigma

## WORK EXPERIENCE

**TKM Restaurants, Inc.** · *Director of Operations* **Feb 2025 – Present**

- Built Python-based report consolidators, generators, payroll automators, and data mapping tools actively used in daily business operations
- Integrated with Silverware POS APIs, vendor APIs, and automated reporting systems to improve managerial and administrative workflows
- Developed a central KPI dashboard using Python data collection/processing, Excel, and Power Query
- Lead 63 employees including 4 managers across a high-volume service operation; oversee hiring, training, scheduling, and operational strategy

**TKM Restaurants, Inc.** · *Project Manager* **Feb 2024 – Jan 2025**

- Revived a remodel stalled for 7+ months; compressed an 8-week projected shutdown to 3.5 weeks using Lean Six Sigma strategies
- Recouped approximately $360,000 in sales from the shortened closure; managed timelines, budgets, contractors, and compliance
- Personally executed plumbing, electrical, and IT networking tasks to eliminate blockers in a resource-constrained environment

**Amazon.com** · *Software Development Engineer I* **Oct 2022 – Dec 2023**

- Spearheaded an image URL inspection feature for 3rd-party seller bulk upload experience, reducing upload errors by 9% and saving ~$50M in annual operational costs

- Collaborated on a team initiative that reduced listing error rates from 60%+ to 14%, contributing to ~$250M in annual cost savings
- Contributed to a 61% reduction in seller report generation times through backend microservice improvements
- Owned full SDLC responsibilities: CI/CD pipeline management, on-call production incident response, code review, automated and performance testing
- Designed and implemented asynchronous system calls and revised data processing hierarchies across team-owned microservices
- Unified 3rd-party seller and 1st-party vendor bulk upload pipelines into a shared Java backend system across team boundaries
- AWS services via IaC: API Gateway, Lambda, EC2, DynamoDB, S3, IAM, Secrets Manager, CloudWatch, CodePipeline, CodeBuild, CodeCommit, Polly, KMS, Amplify, CloudFront, Glue, SQS

**Amazon Technical Academy** · *SDE Training Program* **Feb 2022 – Oct 2022**

- Completed a 9-month, paid-leave internal SDE program: 12% acceptance rate, 80% graduation rate, fewer than 4% of graduates placed directly to SDE I
- Curriculum developed by Amazon Software Directors, Managers, and Principal Engineers; covered Java, AWS, microservices, CI/CD, Docker, Agile/Scrum, and TDD
- Achieved 99% overall program grade; led team to Top 3 of 44 teams in capstone web application project
- Directly promoted to SDE I, bypassing the standard Junior Developer / Apprenticeship track

**Amazon.com** · *Project Coordinator* **Feb 2021 – Feb 2022**

- Primary owner of the WFS Launch Tracker — a C-Suite data source synthesizing 32,000+ data points across 523 active launch sites in 2021
- Reduced Launch Tracker time demands by 42% through Python and VBA automation
- Reduced overall manual workflows by 62% by converting email-based reporting into an automated web dashboard

**Amazon.com** · *Staffing Ambassador* **Mar 2020 – Feb 2021**

- Self-assigned to an internal Optimization Team; reduced key report generation times from 1.5+ hours to under 10 minutes each
- Reduced team weekly hours from ~120 to under 60; automation saved $30,000 annually per field team, $210,000 annually after rollout to additional teams
- Supported record launch of 13 sites in 4 months through process optimization and auditing

## PROJECTS

**erikmabes.com — Personal Website** (Live)

*Stack: AWS (CDK, Lambda, CloudFront, Cognito, API Gateway, S3), Python, React, TypeScript CDK*

- Rate-limited resume download backend (Python Lambda); browser-based games; interactive animated resume visualizer
- User authentication with RBAC via Cognito; fully deployed on AWS with active CI/CD pipelines

**Mobile Application — Meal Planning & Household Management** (In Development)

*Stack: React Native, Node.js*

- Meal selection and planning, automated shopping list generation, inventory tracking, recipe database, cross-service price comparisons

**TKM Operational Tooling** (Production)

*Stack: Python, Silverware POS API, Excel, VBA, Power Query*

- Production tools for report generation, payroll automation, and KPI tracking actively used by the business operations team

## EDUCATION

**University of Arizona** — **Dec 2017**

B.S. Neuroscience & Cognitive Sciences

*Neurobiology emphasis · Psychology minor*

**Amazon Technical Academy** — **Oct 2022**

Internal SDE Program Certificate

*9-month program · 12% acceptance rate · 99% overall grade · Direct-to-SDE I placement*

**Coconino Community College** — **May 2014**

A.A.S. Applied Sciences of Pre-Health

*Cum Laude*
